

Alice Affini

PERSONAL PROFILE

Passionate about technology, art and creativity. I believe that innovation and digitalization can and should be applied to make the world more beautiful and accessible to everyone.

A Cultural Heritage Bachelor's Degree and a Digital Humanities Master's Degree helped me combining both my passions for human-centered creativity and technology.

Continuous investment in self development activities motivates me to always keep myself on the cutting edge of technology trends.

Multicultural environments make possible the *1+1=3 ambition* that everyone aims for.

COMPUTER SKILLS

BACKEND DEVELOPMENT
SOFTWARE DEVELOPMENT
MOBILE DEVELOPMENT
DEV. ENVIRONMENT
OTHER

Python, Django, MySQL, Solidity | Pandas, NumPy, Matplotlib
C#, Unity
Swift
IDE Remix, Microsoft Visual Studio, Microsoft Visual Studio Code
Bash GNU/Linux, 3D Modeling (Blender), GIS, ARCGIS

EDUCATION

Master's Degree in Digital Humanities | **LM-43** @Università del Salento | November 2022

110/110 cum laude and special mention

- **Master's Thesis:** "NFTs opportunities and challenges for cultural heritage sector: Blockchain and NFTs applications in cultural institutions" | Blockchain and NFTs applications in cultural institutions
- **ICT Courses:**
 - Web Technologies : IDM Modeling Methodology, Requirement Elicitation, WordPress system. The final project work concerned the creation from scratch of a website for Cellino San Marco's Coldiretti
 - Database Design: Database System Concepts and Architecture, ER Model , EER Model, MYSQL. The final project work required the construction of a database (I planned, design and build a database for Milano's GAM oeuvres)
 - Computer Science for Cultural Heritage (UNIX operating system, shell and command line interface, commands and utilities, text encoding, file formats and manipulation, computer security)
 - Mobile Application Development (Swift). Creation of an app (via XCode) from scratch for the final project work (mine was about tourism experiences in Pavia)
 - Advanced Project Management (released a PMI certification), PMBOK process groups and knowledge areas, my team presented a project work for Tricase Porto museum's digitization (I had the possibility to play the role of project manager)
 - GIS Applications in classical archaeology (QGIS, the final project work concerned the geolocation of historical towers in eastern Salento); and GIS Laboratory (ArcGIS online for web applications)
 - Virtual and Augmented Reality Applications (extended reality technologies, introduction to 3D modeling and animation with Blender).

Bachelor's Degree in Cultural Heritage sciences | **L-01** @Università degli studi di Milano | July 2020

100/110

- **Bachelor's Thesis:** "Manzoni, Deacon Martino, and history" | Literary analysis of historical references in Manzoni's romanticism
